INDEX

to the

ORDNANCE MAP of IRELAND

Published on the Scale of 25·344 Inches to a Mile

PARISH MAPS.

THE ORDNANCE MAPS OF PARISHES IN IRELAND, ON THE SCALE OF $\frac{1}{2500}$ OR 25·344 INCHES TO A MILE, ARRANGED BY COUNTIES.

This scale is nearly equivalent to one square inch to an acre. Indexes to the plans of the parishes are bound up in the area books, by which the number of the sheets, including any particular locality, may be seen. Each enclosure is distinguished by a number referring to a tabular index, which gives its description and its acreage in the area book.

Any of the sheets in the following table can be demanded, if required, uncoloured, and if so demanded will be issued in the usual course at the uniform price of 2*s.* 6*d.* per sheet, unless areas are printed in each enclosure, in which case the price will be 3*s.* per sheet.

COUNTY MAPS.

($\frac{1}{2500}$ SCALE.)

The sheets in the following table can be demanded, if required, *uncoloured*, and will be issued, with areas printed in each enclosure, at the uniform price of 3*s*. each.

Indexes to $\frac{1}{2500}$ sheets.—These indexes represent about 24 square miles, and are on the scale of 1 inch to 1 mile. They embrace the area of a whole 6-inch sheet, and give very useful information. They show the boundaries and give the names of every townland falling on the 6-inch sheet represented in the index, and they give the price of every $\frac{1}{2500}$ plan included in that area. Price 2*d*. each.
